

Shaver's Lake Preservation Association  
2020 Annual Membership Drive

March 4, 2020

Hello Fellow Shaver's Lakers,

We're at the tail end of winter as I write to kick off our annual membership Drive.

This year, as in every year, we have a number of new neighbors who have recently moved onto Shaver's and into our various Shaver's neighborhoods.

As a reminder our environmental ecosystem consists of 24 property owners and another 20 neighbors with sight lines and vistas to the water.

This year more than ever we need your support by both being a member of the Association and applying for a DNR APM permit. We are making some changes to our water treatment program this year to try and get better results, and we need as much participation from property owners as possible – it's important that we have at least 16 APM permits in order to give the program the best chance to succeed. In addition, with the changes to the treatment program our expense budget is up significantly over the last few years. We need your help to fund our plan.

Attached you will find this year's Shavers Lake Preservation Association Membership form and an APM form. All the APM form needs is your name and your signature, the folks at Lake Restoration will fill in all the remaining details for you.

Please let us know if you have any questions: [board@shaverslake.org](mailto:board@shaverslake.org).

Thank you on behalf of the Shaver's Lake Preservation Association.

Peter Davis
